The Celestine Prophecy Insights

1. We are discovering again that we live in a deeply mysterious world, full of sudden coincidences and synchronistic encounters that seem destined.
2. As more of us awaken to this mystery, we will create a completely new worldview – redefining the universe as energetic and sacred.
3. We will discover that everything around us, all matter, consists of and stems from, divine energy that we are beginning to see and understand.
4. From this perspective we can see that humans have always felt insecure and disconnected from this sacred source and have tried to take energy by domination of each other. This struggle is responsible for all human conflict.
5. The only Solution is to cultivate a personal reconnection with the divine, a mystical transformation that fills us with unlimited energy and love, extends our perception of beauty and lifts us into a higher self awareness.
6. In this awareness we can release our own pattern of controlling and discover a specific truth, a mission, we are here to share that helps evolve humanity toward this new level of reality.
7. In pursuit of this mission we can discover awakened intuition that shows us where to go and what to do, and if we make only positive interpolations, brings a flow of consciousness that opens the door of our mission to unfold.
8. When enough of us enter this evolutionary flow, always giving energy to the highest-self of everyone we meet, we will build a new culture where our bodies evolve to ever higher levels of energy and perception.
9. In this way we participate in the long journey of evolution from Big Bang to life's ultimate goal, to energize our bodies, generation by generation, until we walk into a heaven we can finally see.

What We Believe (Science of Mind)

We believe in God, the living Spirit Almighty; one, indestructible, absolute, and self-existent Cause. This One manifests Itself in and through all creation, but is not absorbed by Its creation. The manifest universe is the body of God; it is the logical and necessary outcome of the infinite self-knowingness of God.

We believe in the incarnation of the Spirit in US, and that all PEOPLE are incarnations of the One Spirit.

We believe in the eternity, the immortality, and the continuity of the individual soul, forever and ever expanding.

We believe that HEAVEN is within US, and that we experience IT to the degree that we become conscious of It.

We believe the ultimate goal of life to be a complete emancipation from all discord of every nature, and that this goal is sure to be attained by all.

We believe in the unity of all life, and that the highest God and the innermost God is one God. We believe that God is personal to all who feel this indwelling Presence.

We believe in the direct revelation of Truth through our intuitive and spiritual nature, and that ANYONE may become a revealer of Truth who lives in close contact with the indwelling God.

We believe that the Universal Spirit, which is God, operates through a Universal Mind, which is the Law of God; and that we are surrounded by this Creative Mind which receives the direct impress of our thought and acts upon it.

We believe in the healing of the sick through the power of this Mind.

We believe in the control of conditions through the power of this Mind.

We believe in the eternal Goodness, the eternal Loving-kindness, and the eternal Givingness of Life to all.

We believe in our own soul, our own spirit, and our own destiny; for we understand that OUR LIFE is God. - Dr. Ernest Holmes
